## AMÉRICA MÓVIL'S SECOND QUARTER OF 2008 FINANCIAL AND OPERATING REPORT

**Mexico City, July 21, 2008 - América Móvil, S.A.B. de C.V. ("América Móvil") [BMV: AMX] [NYSE: AMX] [NASDAQ: AMOV] [LATIBEX: XAMXL], announced today its financial and operating results for the second quarter of 2008.**

- 6.1M net adds in 2Q, up 2% YoY** • In the second quarter we added 6.1 million subscribers to finish June with 165.3 million clients. These net adds exceeded both those registered in the prior quarter and the ones seen a year before.
- 169.2M lines** • In Central America and the Caribbean we had 3.9 million fixed lines at the end of June, for a total of 169.2 million lines in the Americas.
- 1.9M net adds in Brazil, 1.3M in Mexico** • Brazil led the way in net additions, with 1.9 million, followed by Mexico with 1.3 million and Colombia with 1.1 million. They all surpassed those obtained the previous year. In Argentina we gained 410 thousand subs and in Peru 382 thousand subs.
- Revenues of MxP 85Bn in 2Q** • Revenues in the second quarter totaled 84.6 billion pesos. They were up 13.6% year-on-year, and 4.0% over the quarter. Sequentially, service revenue growth was stronger in Mexico (4.4%) and Colombia, Ecuador and Peru (6% on average). In the six months to June, revenues amounted to 165.9 billion pesos, 16.9% above those registered in the first half of 2007.
- Mexican ARPU up 1.8% QoQ** • ARPUs rose over the quarter in Mexico, Argentina and Colombia. Traffic has been growing rapidly driven by subscriber growth and reductions in airtime costs. In all our major operations MOUs have increased year-on-year, most notably in Mexico with nearly 40% growth, where we continue to see good elasticity of demand.
- 2Q EBITDA margin at 41%** • EBITDA for the quarter was 34.7 billion pesos, 13.7% higher than in the second quarter of 2007. Our EBITDA margin for the period stood at 41.0%, with margins rising sequentially in most of our operations, the only exception being Brazil on account of the sharp acceleration of its subscriber growth. Through June EBITDA came in at 68.6 billion pesos, which represents an annual increase of 15.7%.
- 2Q net income up 25.3% YoY** • We made an operating profit of 24.6 billion pesos and a net profit of 17.7 billion pesos in the second quarter. They were up 13.6% and 25.3% year-on-year. Our net income was equivalent to 51 Mexican peso cents per share and 99 USD cents per ADR. In the first six months of the year our net income totaled 31.4 billion pesos.
- MxP 14Bn of Buybacks** • As of June our net debt stood at 84.9 billion pesos, equivalent to 0.63 times EBITDA (last twelve months), down from 92.7 billion in December. Our operating cash flow allowed us to fund capital expenditures of 26.7 billion pesos and share buybacks of 13.9 billion while at the same time reducing by 5.3 billion pesos our net debt.

**Relevant Events**
**New greenfield operation: Panama**

On May 7th América Móvil was awarded a license to provide wireless services in Panama through its Panamanian subsidiary, Claro Panamá, S.A. Under the license, Claro has the right for the use and exploitation of 30 megahertz in the 1900-megahertz band over a 20-year period.

**Concession renewed in Ecuador**

In the same month, we agreed with the Ecuadorean Government the renewal, for a new 15-year term, of our concession to provide wireless services in Ecuador.

**iPhone 3G in Latam**

In June, we announced that we had reached an agreement with Apple Inc. to commercialize the new iPhone 3G in Latin America. It was very successfully launched in Mexico on July 11th and will be available in the rest of our operations in the summer.

**Mobile Portability in Mexico**

Beginning on July 12th, mobile number portability was implemented in Mexico. This is the first country in Latin America to adopt this new scheme by which subscribers may change carriers without losing their phone number.

América Móvil has led the reductions in airtime prices all throughout Latin America. Our average revenue per minute of voice has declined by 18.7% year-on-year to 8.3 US dollar cents, reflecting reductions in substantially all of our subsidiaries.

**165M subs in the Americas**

América Móvil added 6.1 million wireless subscribers in the second quarter, exceeding by 1.9% those obtained in the same period of 2007 and by 6.6% the ones gained in the previous quarter. In the first semester we added a total of 11.9 million subs, bringing our subscriber base to 165.3 million at the end of June, 20.4% more than a year before.

Highlights		Together with 3.9 million fixed lines in Central America and the Caribbean, we have a total of 169.2 million lines in the Americas.
Relevant Events		
Subscribers	<b>1.3M net adds in Mexico +12.3% YoY</b>	Second quarter net additions for Telcel, 1.3 million, were 12.3% higher than those of the same quarter of last year. Through June, we obtained 2.8 million new subscribers, slightly less than the ones obtained in the first half of 2007, to finish the period with a total of 52.9 million clients, 14.6% more than a year before.
América Móvil Consolidated	<b>1.9M net adds in Brazil +17.4% YoY</b>	Our South American operations, which already account for 54% of our consolidated subscriber base, continued to show fast growth rates. A case in point is Brazil, which led the way amongst our operations with quarter net additions of 1.9 million subs, which surpassed by 17.4% the number registered the previous year. Through June we gained 2.9 million subs, 21.6% more than in the first half of 2007. Our share of net additions in the Brazilian market was 26.3% in the quarter and 23.7% in the six months to June. Our Brazilian subscriber base, 33.1 million in June, was up 26.1% year-on-year and 6.2% over the quarter.
Mexican Operations		
Mexico Telcel		
International Operations	<b>#1 in Argentina with 14.5M subs</b>	In Argentina we gained 410 thousand new clients in the quarter – one million in the six months to June – bringing our subscriber base to 14.5 million, up 24.0% from a year before. At the end of the first quarter we had become the largest carrier by subscribers in that country.
Mercosur		
Claro Argentina		
Claro Paraguay		
Claro Uruguay		
Claro Chile	<b>Colombia's net adds up 88.4% YoY</b>	Colombia maintained the rapid subscriber growth pace exhibited in the previous quarters as second quarter net additions rose 88.4% relative to the previous year to 1.1 million, bringing the number for the first semester to 1.9 million. By the end of the period, we had 24.2 million subscribers, which represented an annual increase of 17.4%.
Brazil		
Claro		
Andeans	<b>6.4M subs in Peru +46.7% YoY</b>	Peru upheld its leading position amongst our subsidiaries in terms of the pace of subscriber growth, with a 46.7% year-on-year increase of our subscriber base, which stood in June at 6.4 million. We added 382 thousand clients in the quarter and 937 thousand in the six months to June. In Ecuador, we gained 197 thousand new clients in the period to finish June with 7.4 million subscribers, 18.9% more than a year before. Chile ended June with 2.7 million subscribers, after adding 33 thousand subs in the quarter.
Concel Colombia		
Concel Ecuador		
Claro Peru		
Central America		
Claro Guatemala		
Claro El Salvador	<b>8.9M subs in Central America</b>	Altogether, our operations in Central America obtained 306 thousand subscribers in the second quarter and 719 thousand in the first half of the year. Our combined subscriber base in the region ended June at 8.9 million, 31.1% more than in 2007. In addition to these, América Móvil has 2.2 million landlines in Central America.

\*\* Includes current portion of Long Term Debt

**2Q net profit up 25.3% YoY**

Through June América Móvil's revenues totaled 165.9 billion pesos and EBITDA 68.6 billion pesos. They were up 16.9% and 15.7% respectively as compared to the prior year. The EBITDA margin, 41.4%, was virtually unchanged.

We obtained an operating profit of 24.6 billion pesos in the second quarter which, together with a comprehensive financing income of 0.2 billion, resulted in a net profit after taxes of 17.7 billion pesos, up 25.3% year-on-year. Our comprehensive financing income came about as foreign exchange gains surpassed our net interest and other financial expenses.

In the second quarter the Mexican peso appreciated against most Latam currencies and the US dollar. Whereas some of these movements generated foreign exchange gains, their aggregate impact on our consolidated operating flows was slightly negative quarter-over-quarter.

In the first half of the year our operating profit totaled 48.4 billion pesos and our net income 31.4 billion. They were up by 12.4% and 9.7% respectively in annual terms.

As of June our net debt stood at 84.9 billion pesos, down from 92.7 billion in December. Our operating cash flow allowed us to fund capital expenditures of 26.7 billion pesos (which include the purchase of spectrum in Brazil) and share buybacks in the amount of 13.9 billion, all the while reducing by 5.3 billion pesos our net debt.

Highlights  Relevant Events  Subscribers  América Móvil Consolidated  Mexican Operations  Mexico Telcel  International Operations  Mercosur Claro Argentina Claro Paraguay Claro Uruguay Claro Chile  Brazil Claro  Andeans Comcel Colombia Conecel Ecuador Claro Peru  Central America Claro Guatemala Claro El Salvador Claro Nicaragua Claro Honduras  Caribbean Claro Dominicana Claro Puerto Rico Miphone Jamaica  USA TracFone	<h2 style="text-align: center;">Mexico</h2> <p><b>52.9M subs in Mexico</b> Our Mexican operations added 1.3 million subscribers in the second quarter, 12.3% more than a year before, to finish the quarter with 52.9 million clients, a 14.6% increase over twelve months. Through June Mexico had gained 2.8 million subscribers, almost as many as it did in the first half of 2007.</p> <p><b>2Q Revenues up 12.1% YoY</b> Revenues rose 12.1% year-on-year and 5.3% sequentially to 33.9 billion pesos, with service revenues expanding by 4.4% quarter-over-quarter. In the six months to June revenues totaled 66.1 billion pesos, which represents an 11.3% increase in annual terms.</p> <p><b>ARPU: MxP178</b> ARPU climbed to 178 pesos from 174 the previous quarter reflecting higher ARPUs in both the prepaid and the postpaid sectors, with the former rising in the quarter more than twice as fast as the latter on account of seasonal considerations. The increase was driven by a strong expansion of MOUs, which shot up 5.7% quarter-over-quarter to 181 minutes even in the face of strong subscriber growth, bringing to 39% the MOU expansion that has taken place over the last year.</p> <p><b>EBITDA margin +1.5pp QoQ to 53.6%</b> Mexico is, amongst all our operations, the one that has exhibited the greatest increase in traffic per subscriber as we continue to see good elasticity of demand; in fact, it appears that outgoing traffic is becoming even more responsive to price stimulus. Our average revenue per minute of voice, 7.8 US dollar cents, ranks as the second lowest within the OECD block and is one of the lowest in the Americas. Over the last five years it has fallen 60.3%.</p> <p>EBITDA reached 18.2 billion pesos in the second quarter, growing nearly twice as fast as service revenues on a sequential basis and bringing about a 1.5 percentage points increase in the EBITDA margin, to 53.6%. This expansion partly reflects cost reductions in links, maintenance and rental payments after the launch of our 3G network.</p> <p>On July 11th we launched the new iPhone 3G in Mexico. Since then, sales of this terminal have been outstanding.</p> <p>The Comisión Federal de Competencia published their preliminary findings of their investigation regarding competitive conditions in the mobile market, according to which all mobile carriers in Mexico are deemed to have substantial power in the mobile termination market.</p>

**15.7M subs, up 23.3% YoY**

### Argentina, Paraguay and Uruguay

Our operations in Argentina, Paraguay and Uruguay added a total of 437 thousand subscribers in the second quarter, taking to 1.1 million the net subscriber gains for the first six months of the year. Our combined subscriber base of 15.7 million was up 23.3% relative to last year. Our postpaid subscriber base grew twice as fast as prepaid

**Subscribers**
**América Móvil Consolidated**
**Service revenues +32.8% YoY**

Revenues for the quarter came in at 1.8 billion Argentinean pesos, having risen by 30.5% year-on-year and 4.6% sequentially. Service revenue growth was somewhat faster, at a 32.8% annual rate. With service revenue growth outpacing subscriber growth in the period, ARPU increased by 5.6% year-on-year and 0.3% quarter-over-quarter. In the first half of the year, our revenues totaled 3.4 billion Argentinean pesos, up 30.4% as compared to the same period of 2007.

**Mexican Operations**
**Mexico Telcel**
**2Q EBITDA margin + 6pp YoY to 32.7%**

EBITDA for the period, 572 million Argentinean pesos, was up 8.3% over the quarter and 58.5% compared to last year, resulting in a margin expansion of almost six percentage points over twelve-months, to 32.7% of revenues. In the first semester, we generated 1.1 billion Argentinean pesos in EBITDA, 58.5% more than a year before. This represents a 32.1% margin, up 5.7 percentage points from 2007. The improvement in the EBITDA margin is reflective of greater scale and slower subscriber growth as Argentina's wireless penetration is today in excess of 100%.

### Brazil

Brazil has been showing very good momentum in subscriber growth. With 1.9 million net subscriber additions in the second quarter, we surpassed by 17.4% the figure registered the previous year, having captured 26.3% of the net adds of the market. In the six months through June we added a total of 2.9 million clients, bringing our subscriber base to 33.1 million, up 26.1% year-on-year. We gained more than 504 thousand postpaid clients, our best quarter ever, leading our postpaid sub base to 6.5 million subs for an increase of 35.9% relative to June 2007.

<p>Highlights</p> <p>Relevant Events</p> <p>Subscribers</p> <p>América Móvil Consolidated</p> <p>Mexican Operations</p> <p>Mexico Telcel</p> <p>International Operations</p> <p>Mercosur Claro Argentina Claro Paraguay Claro Uruguay Claro Chile</p> <p>Brazil Claro</p> <p>Andeans Comcel Colombia Concel Ecuador Claro Peru</p> <p>Central America Claro Guatemala Claro El Salvador Claro Nicaragua Claro Honduras</p> <p>Caribbean Claro Dominicana Claro Puerto Rico Miphone Jamaica</p> <p>USA TracFone</p>	<p><b>Data</b> <b>revenues up 57.8% YoY</b></p> <p><b>ARPM down 25.3% YoY</b></p> <p><b>2Q EBITDA at BrL 650M</b></p> <p><b>3G Coverage in all 11 regions</b></p>	<p>We obtained revenues of 2.8 billion reais in the second quarter, which were up 17.2% year-on-year and 7.7% sequentially. Service revenues expanded 18.7% from a year before, as revenues from value added services rose 57.8%, a testament to the great acceptance 3G services have had, especially mobile broadband. They now represent nearly 9% of service revenues. In the first semester, we registered revenues of 5.5 billion reais, 19.8% above last year, on the back of service revenues that increased 20.3% annually.</p> <p>We have proceeded to reduce prices to take advantage of what we believe is a good elasticity of demand. As a result, in the second quarter average revenue per minute of voice declined 25.3% year-on-year, fostering a 22.7% increase in minutes of use. Notwithstanding the traffic expansion, the rapid pace of subscriber growth and the lags typically observed in revenue growth relative to the former have led to a decline in ARPU.</p> <p>EBITDA in the second quarter of 650 million reais was up 8.2% annually, but our EBITDA margin declined vs. a year before to 22.8%. It was pressured by higher selling and marketing expenses brought about by the acceleration of subscriber growth. In the first six months of the year our EBITDA, 1.4 billion reais, exceeded the prior year's by 20.7%. The margin for this period, 26.2%, was slightly higher than in 2007.</p> <p>On July 15th, we started offering 3G services in the northern region of Brazil, we launched services in the states of Pará, Maranhão and Amazonas. As of today, we have coverage in over 70 cities in all 11 regions where approximately 45 million people live.</p>

We have implemented very strict cost control policies which together with greater efficiencies in technical execution have brought down our costs of service and our general and administrative expenses, allowing our EBITDA to rise to 2.4 billion Chilean pesos, a 63.8% quarter-over-quarter and 124.4% year-on-year increase. Our EBITDA margin for the period stood at 3.8% of revenues.

We have recently launched 3G services in Punta Arenas and today we cover 65% of the population with our new network. We are the only carrier selling PC cards for wireless broadband access for which there has been great acceptance.

### Colombia

1.1M net adds  
+ 88.4% YoY

Subscriber growth has again gained momentum in Colombia. Comcel obtained 1.1 million subscribers in the second quarter, 88.4% more than those obtained the previous year, bringing to nearly 1.9 million the net additions for the first half of the year. Our subscriber base reached 24.2 million, surpassing by 17.4% that of June 2007.

Data revenues up  
75.5% YoY

Revenues rose 5.6% in the second quarter to 1.4 trillion Colombian pesos with service revenues growing at a similar pace. In the first half of the year revenues totaled 2.7 trillion for a 1.8% year-on-year increase, on the back of service revenues that expanded 3.2%. The most dynamic component of service revenues was data, as revenues from value added services were up 75.5% over the year.

ARPU up 2%  
QoQ

With service revenues increasing more rapidly than subscribers in spite of the marked acceleration of subscriber growth, ARPU posted a 2.0% sequential increase in the quarter. MOUs have risen nearly 34% in annual terms, partly in reaction to a 33.2% reduction in the average revenue per minute of voice.

EBITDA margin at  
49.7%

We generated 700 billion Colombian pesos in EBITDA in the quarter, 6.1% more than last year and 8.6% over the previous quarter. This resulted in an expansion of almost one percentage point in the EBITDA margin from a year before to 49.7%, in spite of much higher net adds. In the six months to June, we generated 1.3 trillion Colombian pesos of EBITDA, which represented 49.0% of revenues.

**Ecuador**
**7.4M subs in Ecuador**

In Ecuador, we added a total of 197 thousand wireless subscribers in the quarter, bringing to 455 thousand the net additions of the first semester. We ended the period with a total of 7.4 million clients, 18.9% more than in June of 2007. Our postpaid subscriber base grew even more rapidly: 25.6% in annual terms.

**Service revenues +20.7% YoY**

Second quarter revenues increased 18.8% annually and 8.4% sequentially to 258 million dollars, backed by service revenue growth of 20.7%. Even with an annual decline of almost 25% in the average price per minute of voice, blended ARPU was up 1.1% as MOUs surged 35.4% year-on-year. In the six months to June we obtained nearly 500 million dollars in revenues, which exceed by 16.1% those registered a year ago.

**EBITDA up 27.5% YoY**

At 118 million dollars, EBITDA for the period picked up 27.5% relative to the second quarter of 2007 and 11.6% sequentially. Our EBITDA margin – 45.5% – climbed almost three percentage points in twelve months. Through June EBITDA totaled 223 million dollars, exceeding by 23.2% the previous year's. The EBITDA margin in the first half of the year was 44.9% of revenues.

We have made important progress as regards the deployment of our new UMTS/HSDPA network in the country. Porta is today the only carrier offering 3G services and its 3G network already covers 40% of the population of Ecuador.

**Peru**

Claro Peru added a total of 937 thousand clients in the six months to June, of which 382 thousand were obtained in the second quarter. At 6.4 million clients, our subscriber base showed an expansion of 46.7% year-on-year. Postpaid subscribers have been growing at an even faster pace: 60% year-on-year.

Second quarter revenues came in at 506 million soles, 18.5% more than in the same period of 2007 and 5.1% over the previous quarter, on the back of annual service revenue growth of 19.1%. Revenues for the first semester added up to 988 million soles having risen by 18.7% year-on-year. Average revenue per minute of voice declined by 25% relative to the second quarter of last year, contributing to a 6.4% increase in MOUs even in the face of very rapid subscriber growth, there being a lag between the activation of subscribers and their generation of traffic.

EBITDA for the quarter increased by 14.6% compared to last year to 158 million soles, equivalent to 31.2% of revenues. Our EBITDA in the first six months of the year came in at 288 million soles, 5.7% higher than in the first semester of 2007, with the EBITDA margin at 29.1% for the period.

## Central America

Our operations in Central America comprising Guatemala, El Salvador, Honduras and Nicaragua added a total of 306 thousand clients in the second quarter of the year, bringing to 719 thousand the total subscriber gains through June. Our subscriber base topped 8.9 million that month for an increase of 31.1% in relation to a year before.

Revenues totaled 365 million dollars in the second quarter and 731 million dollars in the first half of the year, slightly less than a year before.

In the second quarter, our operations in the region generated 175 million dollars of EBITDA, which represents 48.0% of revenues. In the six months through June, their EBITDA came in at 354 million and the EBITDA margin ended up at 48.4%.

ARPU (US\$)	7	9	-19.7%
Churn (%)	1.8%	1.1%	0.7

## Caribbean

Our operations in the Caribbean added a total of 247 thousand wireless subscribers in the second quarter, almost three times as many as those obtained in the same period of 2007. At the end of June, we had a total of 3.9 million wireless subscribers, 34.8% more than last year and 6.7% more than in the preceding quarter. Together with our 1.7 million fixed lines in Puerto Rico and the Dominican Republic, we had a total of 5.6 million lines in the Caribbean islands.

We had revenues of 530 million dollars in the second quarter and 1.1 billion in the first half of 2008. There was a slight drop in service revenues associated with the contraction of fixed line revenues in Puerto Rico, which outweighed the rise in mobile income.

EBITDA for the period was 200 million dollars (37.8% of revenues), with the total for the first six months at 424 million dollars.

In Dominicana and Puerto Rico, our 3G services are available for over 65% of the population. Amongst all our operations, Jamaica is today the only country in which we have not launched GSM / UMTS/HSDPA services, which will be offered in the third quarter.

 US**

Tracfone, our subsidiary in the US, gained a total of 213 thousand new subscribers in the second quarter to finish June with 10.1 million clients, up 17.9% year-on-year and 2.1% sequentially.

**Service  
 revenues up  
 12.1% YoY**

Our second quarter revenues of 371 million dollars were 8.4% higher than those obtained a year ago driven by service revenues which grew 12.1% in annual terms. In the first semester revenues were up 4.9% year-on-year to 728 million dollars in spite of a 25.4% decline in equipment revenues, with service revenues rising 9.0%

**EBITDA up  
 67.2% YoY  
 before charge**

EBITDA for the quarter nearly tripled that of a year earlier, reaching 88 million dollars. Relative to revenues the margin climbed almost 15 percentage points in the period to 23.6%. The former figures do not include a one-time charge associated with the purchase of stock options held by Tracfone employees that under US GAAP is accounted for as compensation.

Although ARPUs came down 6.7% year-on-year, the cost of the airtime has fallen at an even faster rate, driving the expansion of the EBITDA margin.

ARPU – Average Revenue per User. The ratio of service revenues in a given period to the average number of wireless subscribers in the same period. It is presented on a monthly basis.

ARPM- Average Revenue per Minute. The ratio of service revenues to airtime traffic.

Capex – Capital Expenditure. Accrued capital expenditures related to the expansion of the telecommunications infrastructure.

Churn – Disconnection Rate. The ratio of wireless subscribers disconnected during a given period to the number of wireless subscribers at the beginning of that period.

EBIT – Earnings Before Interest and Taxes, also known as Operating Profit.

EBIT margin – The ratio of EBIT to total operating revenue.

EBITDA – Earnings Before Interest, Taxes, Depreciation, and Amortization.

EBITDA margin – The ratio of EBITDA to total operating revenue.

EDGE – Enhanced Data rates for GSM Evolution. A technology that gives GSM the capacity to handle data services for the third generation mobile telephony.

EPS (Mexican pesos) – Earnings per share. Total earnings in Mexican pesos divided by total shares.

Earnings per ADR (US\$) – Total earnings in U.S. dollars divided by total ADRs equivalent.

Equity subscribers – Subscribers weighted by the economic interest held in each company.

GSM – Global System for Mobile communications. It is the world’s leading and fastest growing mobile standard.

GPRS – General Packet Radio Service. Enables GSM networks to offer higher capacity, Internet-based-content and packet-based data services. It is a second generation technology.

Gross additions – Total number of subscribers acquired during the period.

Licensed pops – Licensed population. Population covered by the licenses that each of the companies manage.

Market share – A company’s subscriber base divided by the total number of subscribers in that country.

MOU – Minutes of Use per subscriber. The ratio of wireless traffic in a given period to the average number of wireless subscribers in that same period. It is presented on a monthly basis.

Net subscriber additions – The difference in the subscriber base from one period to another. It is the different between gross additions and disconnections.

Net debt – Total short and long term debt minus cash and marketable securities.

Net debt / EBITDA – The ratio of total short and long term debt minus cash and securities to trailing 12-month income before interest, taxes, depreciation and amortization.

Prepaid – Subscriber that may purchase airtime to recharge a cellular phone. The client does not hold a contract with the company for voice and data services.

Postpaid – Subscriber that has a contract for the use of airtime. The client has no need of activating airtime, it is done so immediately.

Push-to-talk – Enables compatible mobile phones to function like two-way radios.

SMS – Short Message Service.

SAC – Subscriber Acquisition Cost. The sum of handset subsidies, marketing expenses and commissions to distributors for handset activation. Handset subsidy is calculated as the difference between equipment cost and equipment revenues.

Wireless penetration – The ratio of total wireless subscribers in any given country divided by the total population in that country.
